**WHAT DO WE DO IN PRACTICE?**

In partnership with development organizations on the field having relevant experience, we support disadvantaged children, their families and their communities to participate in creating a better world for all. Our interventions are child focused. This action is made in compliance with human values that we hold so dearly such as: respect, honesty, teamwork, efficiency and performance.

**WHAT OTHER VALUES TO OUR ACTION?**

We promote the transfer of capacities to enhance sustainability in the field. Our work promotes work through implementing partners and active synergy between local competencies and good practices from elsewhere.

**OUR INTERVENTION ZONES**

We work in Centre, Southern-Center, Central Plateau, Central-East, Central-West and Eastern regions with around twenty projects and programs. To date, about 9,000 children are sponsored and more than 4,000 households are benefiting from our support in about twenty communities in Burkina Faso.

**We dream of a world where every child has a voice and the ability to achieve their full potential.**

**BACKGROUND**
Under the leadership of an American pastor, China Children’s Fund Organization was created in 1938 in order to help children affected by the Sino-Japanese war from 1937 to 1945. Inspired by this organization, Christian Children’s Fund of Canada (CCFC) was created in 1960. CCFC started its interventions in Burkina in 1987. In addition to children sponsorship, CCFC works henceforth for sustainable child-centered community development with actions carried out by partners having relevant field expertise.

**OBJECTIVE**
Support disadvantaged children, their families and their communities in order to create a better world for all. Our intervention is made through sponsorship and various development projects implemented by our field partners which are ACCED, IDEES/ACG, OCADES (Fada and Koupela), EE/SIM and AOG. These actions restore hope to thousands of children and their communities who contemplate their future differently.

We dream of a world where every child has a voice and the ability to achieve their full potential.
